Compassionate Giving, to improve the health of our community. one gift at a time.
Dear Continued Supporter,

The Home Care & Hospice Foundation of Pike County is asking for your support. Your contribution will help Pike County Residents experience a healthy, fulfilling and meaningful life.

The purpose of the Foundation is to fill the gap that occurs between the Pike County Health Department, Home Health & Hospice and their expenses, due to: staff education and training, maintenance, and equipment for patients, and overall patient care. The overall objective of the Foundation is to provide the highest quality of Hospice and Home Health care to area citizens; regardless of their ability to pay.

Since 2006, each fall we have been campaigning for annual donations to support our Foundation. The Annual Giving Campaign has been sent to previous donors in hopes they will continue their support for another year. This year we have added our 2016 Annual Report to show you, our supporters, evidence that your donations are being utilized to GIVE BACK to the community.

Please complete the enclosed form below and return with your donation. Your contribution makes it possible for us to continue providing exceptional care above and beyond our patients’ essential needs.

Thank you,

Melaney Mathis, Chairman

Rhonda Stumbaugh, President

History of the Foundation...

2001

The Beginning
“Dreams do come true for new Home Care and Hospice Foundation of Pike County after two years.”
This was the heading for the Louisiana Press Journal’s June 20, 2001 article about the creation of the Foundation. Since that first meeting on April 25, 2001 the Foundation, with its donations, has helped thousands of patients and community citizens. “Donations have been used for care of indigent patients, to pay for costly medications that patients need to maintain a level of comfort in the dying process...”

Mr. Siefkas, Chairman of the board of directors, said “Now the dream continues that this area can have Hospice and Home Health services that are adequately funded and able to provide the best services to the patients regardless of ability to pay.” Pike County Health Department, Home Health & Hospice has a passionate staff that are all dedicated to providing the necessary care to their community. Patient care will continue to be greatly enhanced with the financial support of the foundation.

Memorial Service
It is a time for friends and family to come together and remember hospice patients and be reminded of the journey they have taken since their loved one’s passing. The service is not only for loved ones left behind, but also for the hospice staff and community members that have assisted in so many ways through the years, to make the hospice program what it is today. The first memorial service was held in 1994, and since 2001 the Foundation has helped fund this service to show our sympathy and support for our community and our hospice program.

Volunteer Appreciation Dinner
Pike County Hospice has hosted an annual Volunteer Appreciation Dinner since 1999. In 2003, the Foundation began funding this event to show our hospice volunteers our sincere appreciation of what they do for our patients. Hospice volunteers perform many services for the hospice patients and families in our community, such as companionship, respite for caregivers, clerical duties, preparing meals for hospice patients and their families, run errands, supply delivery and pickup, serving as board members and assisting with various hospice activities. At the dinner, our volunteers are presented with gifts and thanks are given for all of their hard and compassionate work.
1st Annual Cookies and Cocoa with Santa
Monday, December 8, 2008 from 4pm to 6pm the Foundation held the first Cookies and Cocoa with Santa event at the old Public Health Building. Santa and Frosty came to the Health Department for the first time. Crafts, cookies and hot chocolate were served to the children. We had a much larger crowd than what was expected in that time frame. There was not enough space to keep this event organized, so we didn’t offer the event again until we moved to our new facility in 2011. Our Foundation is dedicated to returning a portion of our profits back to the community and we feel this is a great way to bring families together in the biggest season for giving, Christmas. This is a free event for our community, and we know there are some families that struggle financially during the holidays. This is our way of bringing joy to the citizens of our area. The images shared below are from 2011-2014 events.

New Facility Project Begins
Operating the numerous programs we have to offer out of two buildings that both yielded their own health concerns, it was imperative that a new, environmentally safe facility must be constructed and allow us to grow.

FROM THE ARCHIVES - November 2009 newsletter:
The Pike County Health Department began operations in 1948 out of the county courthouse and has been housed in our current facilities since the mid 90’s. Since those times our agency has touched and cared for many lives. Pike County Health Department, Home Health & Hospice continues to grow with the community and is ready to make an exciting transition.

On June 3rd, we will be closing our doors to the past and opening our new doors to the future. We will continue to serve our patients and clients with the same quality care; however in a more efficient and effective manner. Nineteen programs/services are provided to the residents of Pike County and we will continuously grow as our community needs expand.

Open houses will be scheduled after we have moved and are settled. Please watch the newspapers for those dates.

We are grateful to the people of Pike County for all of the support we have received during this process. Hours of volunteer work has been given along with monetary donations. We are at 71% of our goal for this new facility. Fundraisers will continue and donations accepted for the building fund.

The vision of this new facility began six years ago and we are about to see this vision become a reality.

Thank you Pike County Supporters!
1st Annual Valentine Gala, February 14, 2012

Jennifer Schumacher, Administrative Assistant and Event Coordinator explains how the first Valentine Gala came about and more.

After numerous small fundraisers, the Home Care & Hospice Foundation of Pike County Board decided to attempt one large fundraiser to raise funds for the year to help offset the costs of our new facility that was built in 2011. It was discussed that many people leave the county for Valentine’s Day to have a nice dinner, why not offer a nice evening of food, entertainment and fun in Pike County! The first Gala was held at the Pike County Fairgrounds. A pork chop dinner along with cupcakes and chocolate covered strawberries were enjoyed by the approximate 280 in attendance. Bowling Green PRIDE entertained the guests with song and dance prior to the auction.

It was a successful evening raising over $25,000.00. The evening consisted of dinner, PRIDE entertainment, silent auction, live auction, pictures, and raffles. A lot of work goes into such an event, but very worthwhile as we live in a very supporting community. As the Event Coordinator, the Valentine Gala is my favorite event to plan. It is similar to planning a wedding reception as there are so many details and planning that takes place. Every year we try to improve or change something from décor, food or entertainment to see what our attendees like best!

I will soon begin planning our 7th Annual Valentine Gala. It is set for February 10, 2018. Our Galas are now held at the KC Hall in St. Clement as we needed more space as our event continues to grow, now profiting over $40,000!! The décor has increased tremendously along with the well-known dessert table and mouthwatering Prime Rib. Dueling pianos have been our entertainment for the last two years which keeps our attendees laughing and engaged!! The dueling pianos will once again return to the stage for the 2018 Gala! Our community is very generous in so many ways. We appreciate the support and attendance keeping our Galas successful. Thank you.

FROM THE ARCHIVES - March 2012 newsletter:

1st Annual Valentine Gala Marked a Success!

The Home Care & Hospice Foundation marked the 1st Annual Valentine Gala as success as $25,000 was raised to go towards the new facility. A sold out crowd attended the event held at the Pike County Fairgrounds on February 14, 2012.

“The board was thrilled with the support of the community,” said Jim Hansen, foundation board member and chair of the building project. “It was an evening of delicious food, fun and fellowship while raising money for a worthwhile project,” he added.

One of the highlights of the evening was PRIDE, Bowling Green High School show choir performing several songs and dances for the audience. The group along with band members served the tables during the evening meal. The choir was presented a check for their services, but chose to donate the money back to the foundation.

An auction with Bill Unsell, foundation member auctioneering and entertaining the crowd added funds to the overall evening. The highest selling item, bringing $1,050 was a wood decoy carved by the late Les Brown and donated to the auction by his wife, Dorothy Brown, foundation member. Fierce bidding developed on several items providing excitement and enjoyment for the crowd.

“The foundation plans for the Valentine Gala to become an annual fundraising event,” says Justin Selle, President of the foundation. “Our new building is not yet debt free and this event will help to make it so,” he added.
**Easter Egg Hunt**

The City of Bowling Green asked us to partner with them to host an Easter Egg Hunt for our community. Of course we agreed, but couldn’t just offer an Easter Egg Hunt. We had a bounce house, train rides, cupcake walk, face painting, bunny hop races, concession, the Easter bunny and so much more, with 307 children in attendance! The image shared here is from the 2015 Easter Egg Hunt. With great sadness, the 2016 Easter Egg Hunt was the last, as new state regulations came upon our agency, it was decided that the focus should be maintaining the quality of our current programs. We believe that there are plenty of other great establishments within our community that host wonderful Easter events, so we have no doubt that the children will still have a fun holiday to remember for years to come.

---

**Memorial Border**

The Home Care & Hospice Foundation of Pike County helped develop a “Memorial Border” of specific beautiful trees surrounding the PCHD building. Families who have had a loved one under our hospice care were given the opportunity to purchase one of these trees and dedicate it to the memory of their lost loved one by inscribing their name in a beautiful granite stone that lay beneath. In addition to the memorial trees there are future plans for an expansion to the border so that families are still able to dedicate in memory of their loved ones.

---

**New Logo**

This logo has been used for branding the Foundation since its beginning in 2001:

In 2016 it was brought up that it was outdated, and the board agreed to choose a new logo to represent their cause. Tracy Brookshier, Marketing Coordinator for the agency designed and prepared 4 new logo options and presented them to the board for their decision. It was almost a unanimous decision that the foundation would now be recognized with this logo:
Ice Cream Socials

Each month we visit with our elderly community over ice cream. Ice Cream Socials are our way of making sure we give back to ALL the community, most of the elderly generation are in nursing homes, residential homes, assisted living facilities, and senior housing. Many of them are unable to leave to attend our events, so we bring the event to them. PCHD Ice Cream servers come dressed in accessories to match any respective holidays, or costumes just for fun (it’s a great conversation piece, you know!) Along with the tasty ice cream, residents receive a “fun sheet” that offers a word find and coloring page to enjoy at any time.

On the third full week of each month we serve residents within our coverage area which are Country View Nursing Facility, Moore-Pike Nursing Home, Bowling Green Residential, Bowling Green Housing Authority, Maple-Grove Lodge, Lynn’s Heritage House, Gamma Road Lodge, Tri-County Nursing Home, and Country Side Manor. It is obvious the residents enjoy it, and we are happy to be able to offer some fun socialization to the area’s elderly generation. View our calendar of events on our web page to see when the next Ice Cream Socials are happening!

Cookies and Cocoa with Santa

At this year’s event, the décor was changed from “Holiday” to “Disney and Characters.” The kids loved it! Again, wrapped for each child was their own Disney Christmas book! Children also enjoyed free pictures with Santa and one of his live reindeer. This free event ensures all ages of our community are able to enjoy some holiday spirit with their family. With almost every year having more children in attendance, we have prepared the 2017 event with 550 books (1500 pounds) wrapped and ready to go along with 520 Disney ornaments for each of the children that attend this year’s event. Save the date for the 2017 event: Saturday, December 2, 2017.

Since the beginning of our Ice Cream Socials we have...
- topped off with more than 10 lbs. of sprinkles
- drizzled over 80 lbs. of topping
- and served over 7,500 scoops of ice cream
**Veteran Appreciation Fair & Flag Dedication Ceremony**

In 2016 our agency purchased a flag pole to be displayed at the entrance of our building. What better way to honor the first flag raising than in honor of our Veterans? We hosted our first annual Veteran Appreciation Fair and Flag Dedication Ceremony the day before Veteran’s Day and had a great turnout! The morning began with a ceremony featuring bagpipes, trumpet, color guard, our local VFW, a prayer by our Hospice chaplain, and speech from one of our local veterans. After the ceremony, guests were invited inside for complimentary coffee and breakfast. Additionally dog tags and a keepsake photo of themselves seated by the American Flag were offered. Inside, our guests had access to useful Veteran specific resources that they deserve for serving our country. The event went over so well, the board decided to make it an annual event. Pike County Hospice is a part of the We Honor Veterans program, which teaches our staff about specific services available to our Veterans. This helps ensure that our hospice patients whom are Veterans, get everything that they deserve, even in their last moments.

---

**Newsletters**

Previously our Foundation sent out quarterly newsletters to those who have been supporters of our cause, this was to keep our public informed of the services we offer, and what the foundation has done for our community. In 2016 the idea to form monthly newsletters for more than just our donors surfaced. Each month over 800 paper newsletters, and over 100 e-newsletters are sent out to the general public. This is a great way for the foundation to help support our services by ensuring everyone understands what our agency does, and how we give back to the community. If you would be interested in receiving these monthly newsletters via direct mail, or e-mail; please use the form on the back page and send in the postage-paid envelope provided.
5th Annual Valentine Gala

Our 5th Annual Valentine Gala was held on Saturday, February 6th at the KC Hall in St. Clement. It was a very successful event profiting just under $40,000. A Prime Rib Dinner along with the well-known dessert table was enjoyed by approximately 350 attendees. The dueling pianos were extremely entertaining as our crowd was very engaged with the performance.

The VIP table is a big hit every year. The VIP table is sold for the next year during the auction. The highest bidder will receive a table for 8, 4 parking places, first to eat, a bottle of wine, a personal server and a dessert plate.

The funds raised from each Valentine Gala are to help offset the costs of our new facility that was built in 2011. Since that first event, we have been blessed with an enormous amount of support from our community members who return each year to help us raise funds to keep our Foundation operating. Below is a graph showing the profits made from each Gala.
In 2016, the long awaited journey to begin the process of building an Assisted Living Facility began. The first step in the process was to obtain our Certificate of Need (CON). On March 6, 2017 the state of Missouri awarded us our CON for a 40 bed facility.

Since that time our agency has faced a change in administration. With a new director in place, we need to refocus and raise the funds necessary to build such a facility that will fill the void that our community faces between independent living and a nursing home - giving our loved ones the quality of life they deserve.

We are committed to provide the best healthcare possible for our community!

FROM THE ARCHIVES
April 2017 newsletter:

Approval for construction of Assisted Living Facility, filling the needs within our community.

Pike County’s demographic information was used to determine the need for a 40 bed assisted living facility in the county, and 42 beds on a regional level. Although the initial plans are not to construct something as large as a 40 bed, the board is considering a 15-20 bed with the ability to grow in the future. Our agency is proud to be able to offer this to our community, please stay tuned for more information, and for community surveys to get your input on what benefits would be best utilized within the new “Meadows of Pike County.”

Upcoming Events

September, 2017 - Nursing Scholarship
The Annual Home Care & Hospice Foundation $1,500 nursing scholarship applications will be available.

Thursday, November 9, 2017 - Veteran Appreciation Fair & Flag Dedication Ceremony
Come and enjoy free breakfast, Veteran specific vendors, Flag Dedication Ceremony and more!

Saturday, December 2, 2017 - Cookies and Cocoa with Santa
Bring the kids and your camera! Enjoy a walk through our Disney themed office on your way to get a free photo with Santa and one of his live reindeer! Don’t forget the free cookies, chocolate milk, and each child gets to take home a special Christmas gift!

Saturday, February 10, 2018 - 7th Annual Valentine Gala
Reserve your table soon, this event fills up quickly! Enjoy a formal evening of great food, desserts, auctions, entertainment and more, all while supporting your community through our Foundation!
The Annual Giving Campaign is our way of raising funds to assist our home health and hospice patients. These donations help our patients within these programs. Each fall, information on the foundation, as well as donation forms and other materials are sent to those who have made donations previously. This is our way of offering the opportunity to continue the compassionate giving.

Memorial Donations are made by persons who want their donation to be made in memory of a lost loved one. These donations typically come from funeral visitations, general mail, or in the form of the trees that make up our memorial border surrounding our office building. In 2017 a new memorial was debuted at the 6th Annual Valentine Gala, where donations were accepted and in return, a picture of a loved one was displayed by candlelight at the well attended event.

In 2016, of all the donations received, 80% of those funds were GIVEN BACK to the community through Direct Patient Care, Caregiver Support, Public Events/ Activities, and Volunteer Appreciation.
Our Hospice Volunteers are an amazing asset to our Hospice program. This fine group of people volunteer their time to sit with patients and keep them company. From reading to patients to installing bird feeders, there is not much our volunteers have not done to see a smile on our patients’ faces. The Foundation helps support these special request items, and our volunteers put them into action. They are a big part of our program and they deserve to be appreciated. We show our appreciation by having a volunteer appreciation dinner for them and a guest. Hosted in our community conference room, we serve dinner and special gifts to show our gratitude for all they do.

In 2016, of all the donations received 5% of those funds were utilized to show appreciation to our Hospice Volunteers.

The Foundation and the Pike County Health Department, Home Health and Hospice take pride in our efforts of GIVING BACK to all ages of our community. The events that we host are a big part of our attempt to give back to the public. From the Veterans Day Fair & Flag Dedication Ceremony in November, the Valentine Gala Dinner and Auction in February, to the Cookies & Cocoa with Santa in December, we serve these events to show our gratitude.

In 2016, of all the donations received 20% of those funds were utilized to “Give Back” to our community through events.
We can’t have a steady Foundation without the typical operating expenses. These expenses include but are not limited to print materials such as brochures, flyers, newsletters, memorial donation envelopes & mailing envelopes, postage, office supplies, and any professional fees.

In 2016, of all the donations received 5% of those funds were utilized to “Give Back” to our community through activities. Some activities that the Foundation assists in include monthly ice cream socials and different games that are directed towards our elderly population that reside in our local nursing/residential homes, and assisted living facilities. This is our way of giving back to those residents that are unable to get out and attend our events, and we believe it is great way to keep their spirits up, minds active, and more. These activities help us ensure we are “giving back” to all ages of our community.

In 2016, of all the donations received 20% of those funds were utilized for operational expenses.
In 2016, of all the donations received 50% of those funds were utilized for Direct Patient Care and Caregiver Support.

In 2016, 50% of donations made were utilized for patients and their caregivers. These donations were utilized in many ways from buying stuffed animals and coloring books to assisting in funeral expenses for our hospice patients families with financial difficulties.

- **Know you are in Caring, Compassionate Hands**
  Our Foundation prides ourselves in our excellent patient care and caregiver support. Our Hospice program is one of ONLY FOUR County based hospice’s in the state of Missouri. *What does this mean?* It means that while other Hospice organizations are governed by CEO’s, we are governed by elected members of your community. These members do their job for free, they listen, they care. Similar to the Foundation board members, they too, are members of your community that volunteer their time and compassionate hearts to serve you, our community.

- **Forget your Financial Burdens**
  We understand that some health issues are hard to prevent, and even harder to pay for. We do not want any of our patients to go without something they need to live comfortably, just because insurance will not cover it. With each request the foundation receives, it is assessed, and if it is proven that a family is in financial distress, we do our best to assist in any way we can.

- **Live Comfortably, Enjoy a Treat, ENJOY LIFE**
  We want to ensure our hospice patients are as comfortable as they can be, no one deserves to go without something they enjoy or makes them happy at the end of life. A patient enjoys coloring and word searches, or enjoys Mickey and Minnie Mouse? We will put those in their hands. Putting a smile on our patients faces is a mirror effect, it makes us smile, it makes our hearts full.
Compassionate Giving
to our patients

Our team of Nurses, Aides, Social Workers, and our Chaplain are the ones that assess our patient’s needs, whether those needs are medical, physical, or even emotional...if Medicare does not cover it, we will. If a patient specifically requests something of need or comfort, we are here to help. The Foundation board will assess the need of requested items, and delivers if the need is proven. Here are some examples of different items we have given to assist our patients throughout the years:

- **Medical Equipment and Supplies not covered by Medicare.**
  - Scooters and Lift Chairs
  - Generator for home health patient who’s medical equipment was needed during power outages
  - Shower safety grab bars
  - Coaguchek strips were approved for purchasing to obtain protime/ INR results. Now it is only a small finger stick compared to the previous procedure of performing a venipuncture
  - Installation of a handicap ramp for patient to get in and out of their home themselves

- **Physical Comfort Items.**
  - New bed sheets & pads for all Hospice patients
  - Portable Fan to increase comfort level of a patient
  - New pajamas
  - Massage therapy for our hospice patients to ensure their continued comfort
  - New shoes for a patient who could not afford them

- **Emotional Comfort Items.**
  - Coloring books and word searches for a patient to keep busy
  - Stuffed animals to comfort a patient relapsing into childhood memories
  - Small birthday gifts to lift spirits and bring happiness to patients
  - Fresh fruit for a patient unable to leave the nursing home to get it themselves
  - Fuel Card for patient’s distant family to come and visit them in their last moments of life

- **Living Comfortably.**
  - Small dumpster for disposing of items that posed a health risk which a patient could not afford
  - Air Conditioner window unit replaced for a patient struggling financially in the heat of the summer
We give assistance to hospice patient’s caregivers to assist in their role as a provider for their terminally ill loved one. Here are some examples of the type of caregiver support we offer:

- **Respite Care.** When a hospice patient has a sole caregiver, we understand that it is a 24/7 job. Respite care gives the caregiver a break to run errands or even just to spend time with a friend. Respite can be a costly service, and we have been lucky enough to be able to cover those costs for those caregivers that are in a financial bind.

- **Care Packages.** When a patient passes away, our Foundation puts together a package with small tissue packets, complimentary “Thank You” cards & postage, a gift card specific to the family, cookies, information on letting yourself grieve, a journal of remembrance and more. The last thing a grieving person wants to do is run to the post office, or find an organized way to keep track of gifts and food received from sympathetic family and friends, which is why we also add a booklet to help keep record of all the gratitude shown to them.

In addition to this care package, we have also recently began sending a visitation basket. We organize and deliver a basket of water, crackers, tissues and more for the family to have during their loved ones visitation hours. If you have ever been directly involved with a visitation, you are aware of the amount of time spent on your feet, talking and crying with close family and friends. We hope this basket will help keep the family’s tears dry, thirsts quenched, stomachs settled, and hearts full.

We understand the amount of physical and emotional stress losing a loved one causes, and we do our best to try and relieve some of that burden.
Bereavement Support. Our Foundation assists in the operational costs of any Bereavement Support needed for our patients’ families. Following the loss of a loved one, there is no doubt that many struggle with continuing their life with this new, heavy feeling of grief. This is a burden on many, and our Hospice program does its best to ensure that you have the support and encouragement you need by offering personal support from our Social Worker for up to 13 months after the loss, as well as a Bereavement Support Group.

Our Hospice Social Worker helps the family during the end of life process, as well as after, to understand that grief is normal, and that the emotions you are feeling are also normal. This is done on a one-on-one basis personally for the patient’s family.

Meet Brother Don Amelung our Hospice Chaplain who facilitates the Bereavement Support Group.

"At Pike County Hospice we know that everyone must deal with grief and bereavement, but we also believe you do not have to do it alone. It is our honor and joy to help in the time of struggled questioning" - Brother Don Amelung, Hospice Chaplain

The Bereavement Support program is open to the public and is done in a group setting once a month on the first Monday at 6:00pm in our Community Conference Room. This group is free of charge and aims to assist people, without charge, in learning to live with this “new normal” by:

- **Providing a safe space in which to explore grief in whatever ways that works best for the person.**
- **Reducing the isolation of bereaved people by facilitating connections with other bereaved people.**
- **Normalizing the grief experience.**
- **Nurturing the resiliency of people to identify their own inner resources and coping strategies.**

This support group strives to assure our bereaved compassion, mutual support, understanding, diversity, integrity and allow our families to feel safe and supported in a nurturing environment.

In 1969, 21 years after the grand opening of our Public Health Department, Pike County Home Health Services were officially offered to our community. Home Health is care provided in a home or residence during a time of acute onset or worsening of a condition that requires a nurse or therapist (physical, occupational, or speech).

Home health care is a wide range of health care services that can be given in your home for an illness or injury. Home health care is usually less expensive, more convenient, and just as effective as care you get in a hospital or skilled nursing facility (SNF).

Examples of skilled home health services include:

- Wound care for pressure sores or a surgical wound
- Patient and caregiver education
- Intravenous or nutrition therapy
- Injections
- Monitoring serious illness and unstable health status

The goal of home health care is to treat an illness or injury. Home health care helps you get better, regain your independence, and become as self-sufficient as possible. If you get your Medicare benefits through a Medicare health plan, check with your plan to find out how it gives your Medicare-covered home health benefits.

If you have a Medicare Supplement Insurance (Medigap) policy or other health insurance coverage, tell your doctor or other health care provider so your bills get paid correctly. If your doctor or referring health care provider decides you need home health care, they should give you a list of agencies that serve your area. They must tell you whether their organization has a financial interest in any agency listed.

Meet Carolyn Orf, our Home Health Coordinator

“Our home health program is filled with some of the best nurses in the area. They care deeply about their patients and are passionate about the work they do. We pride ourselves on being able to get our patients back to health in their own home.”

– Carolyn Orf, RN, Home Health Coordinator & Nursing Supervisor
Hospice is a specialized type of care for those facing a life-limiting illness, their families and their caregivers. This special care addresses the patient’s physical, emotional, social and spiritual needs. It takes place in the patient’s home or in a home-like setting and also assists the patient’s family caregivers. Hospice care concentrates on managing a patient’s pain and other symptoms so that the patient may live as comfortable as possible and make the most of the time that remains.

You have the choice when it comes to a Hospice provider, so why do so many families choose us? Pike County Hospice provides specialized care to terminally ill patients and their loved ones. The Hospice Interdisciplinary Team consists of a medical director, professional nurses, medical social worker, spiritual counselor, home health aides, and volunteers working together to provide care that addresses physical, emotional, social and spiritual needs.

- Pike County Hospice is NOT-FOR-PROFIT. We will not turn patients away, we will proudly provide services to those in need no matter what the financial standing may be. Our Home Care & Hospice Foundation helps us to guarantee this to our patients and their families.
- We are compassionate about ensuring the comfort of both our patients and their families.
- Partially funded by your tax dollars; by choosing Pike County Hospice you are putting your tax dollars to work.
- Our satisfaction rates exceed the industry standard.
- We are one of only FOUR county based hospices in the state of Missouri, our Hospice program is governed by the citizens of our community, not a CEO. These five board members are elected by you, and they are willing to volunteer their time to ensure our programs are suiting what is best for the community.
- Our staff are your neighbors; Majority of them have lived in the community their entire life, and they eagerly await to care for their neighbors; your family.

Meet Amy Becker, our Hospice Coordinator

“Hospice is about quality of life, not just for the patient but for their family as well. We work very hard to ensure our patients are as comfortable as possible. We keep the families informed on what to expect with end of life care and the emotional support we have to offer them. We are proud to be one of only six county based hospice’s in the state. Our nurses live near by, so being able to care for our own neighbors is very gratifying and heart warming.”

– Amy Becker, RN, Hospice Coordinator
Enable Pike County Home Health & Hospice to provide hospice care to patients and families regardless of their ability to pay. We are a not-for-profit 501(c)3, charitable organization.

Any donations received are issued to assist patients and families served by Pike County Home Health & Hospice.

Donations are also tax deductible and are accepted in many sorts including appreciated assets such as securities or real estate.

**Making a donation to the Home Care & Hospice Foundation of Pike County is easy:**

- **By Mail:**
  Fill out the pre-paid envelope from the front of this report and mail your donation.

- **Our Office:**
  Stop by our office at any time during our working hours Monday - Friday 8AM-4:30PM
  1 Healthcare Place, Bowling Green, MO 63334

- **Donate Online by visiting our website:**
  www.pikecountyhealth.org > Hospice > Home Care & Hospice Foundation of Pike County

  Look for the green [Donate] button.

OR download the donation form and mail to us at 1 Healthcare Place, Bowling Green, MO 63334
Testimony/Requests

Tell us about your experience with our services, and/or request our monthly newsletter. Cut out the forms below and mail inside the pre-paid envelope. No donation necessary.

Pike County Health Department
Home Health & Hospice
Why are you passionate about the Foundation, and what encouraged you to become a member of the Home Care & Hospice Foundation of Pike County?

“My mother in law. She was our families ROCK! The foundation board helps enrich & encourage the growth of the hospice program. Our family would have been lost without the compassionate care we received during her battle with Cancer.”

– Elisha Koenig, Board Member since April 2014

“I am so thankful for our agency… for all the things we do for our people in our community, especially the children with the Cookies and Cocoa with Santa, the Easter Egg Hunt… so many would not be able to see Santa or the Easter Bunny. We are able to meet so many patient’s needs for people on hospice or that have come home from the hospital and in need of our care. One of the main reasons I am a member of the board and try to do so much is because when I was little and growing up, my mom was raising seven kids all by herself and if it had not been for this community I am not sure where we would have ended up. We were given baskets of goodies at Thanksgiving and Christmas, and given a pool membership every summer. I look back and think that there had to be someone on a board somewhere who wanted to help families like mine in need. So I am here to pass it on.”

– Sonya Gilbert, Vice Chairman , Board Member since January 2010

“I think Home Health and Hospice is a great thing for our community personally seen what has been done for our community members as well as my relatives just recently my cousin Mike, as well as my grandmother and father-in-law. Without this great out pour of help, people of need with their loved ones would be facing a harder and more difficult time. So anytime someone is there to help people in need I would like to be apart of it.”

– Kent Betts, Board Member since January 2014

“My first experience with Pike County Home Health & Hospice was when a dear friend was dying of cancer. When visiting her I saw first hand the wonderful care and love her and her family was receiving during this very difficult time. Such a comfort this was to me and a memory I have never forgotten. When I retired I was asked to serve on the Home Care & Hospice Foundation Board and could not think of a more worthwhile board to serve and be a part of. Since being on the board my mother required the help of Home Health and soon afterwards hospice care. She so looked forward to the caring employees of PCHH and their smiling faces. Our community is truly blessed to have this service with the dedicated and caring employees who work for PCHH.”

– Nellie Wamsley, Board Member since April 2012
80% of those funds were GIVEN BACK TO THE COMMUNITY.

Thank you for your continued support in all that we do.

The Home Care & Hospice Foundation of Pike County and the Pike County Health Department, Home Health & Hospice could not be successful without the assistance of our generous community.

It is with YOUR help that we are able to provide exceptional care above and beyond our patients’ essential needs.
