

PIKE COUNTY Breastfeeding TASK FORCE

The Pike County Health Department, Home Health & Hospice and the local WIC agency has been making strides towards promoting breastfeeding through education, support and the offering of resources. In efforts to help women reach their breastfeeding goals, it has become apparent that a strong community-based support system is crucial to breastfeeding success. We also desire to be a source of information and support in adapting to new developments regarding breastfeeding.

The Pike County Breastfeeding Task Force consists of medical and healthcare professionals that meet quarterly to discuss and addresses the importance, implementation, and ongoing availability of breastfeeding support to women in our community.

NEXT MEETING:

Our April meeting will focus on World Breastfeeding Week plans.

Tuesday, April 25th, 2017

7:30am

Pike County Health Department, Home Health & Hospice
Community Conference Room (side entrance)
1 Healthcare Place, Bowling Green, MO 63334
