

Home Health & Hospice Services Expanded!

Pike County Home Health and Hospice is excited to announce the recent expansion of our service area.

State regulations previously kept us from being able to provide our services to those requesting Pike County Home Health & Hospice. Recently, those regulations have lifted and we are now able to provide these programs to those who request them.

We are now able to provide our high quality healthcare to our neighboring counties: Audrain, Lincoln, Montgomery, and Ralls.

Below is a visual map of our updated coverage area.
