

UPCOMING FLU SHOT CLINICS

Each year our agency schedules public flu shot clinics throughout the community. You can find this schedule online at our website at www.pikecountyhealth.org, click on “Immunizations & Vaccination Clinics” under the “Public Health” tab. You can also watch the local newspapers for advertisements of upcoming clinics.

We care about the health of our community and keeping our neighbors safe. A portion of these efforts are done so by offering the Flu vaccine every year. If you are unable to attend a scheduled public flu clinic, you may visit our Walk-In Clinic to receive your flu shot. No appointment necessary, just visit us between the hours of 8AM-11AM & 1PM-4PM Monday through Friday!
