Lagoon Permit Application Supplement, to be filed with Permit Application.

Property Owner's Name: _____
Property Owners Address: _____
Property Address or location: _____
Property owners phone number: _____
Installer: _____

This letter is to signify that a lagoon will be installed at the above property by the above installer. To complete the lagoon, a fence must be installed according to the regulations listed below. **This fence must be installed within two (2) weeks of completion of the lagoon or before the residence becomes occupied, whichever is the latter.** The Pike County Health Department must be contacted after the fence is completed for a final inspection. **The party responsible for building the lagoon fence shall be:**

Please print clearly

Signed _____ Date _____

A copy of this form will be sent to the homeowner.

Fence Regulations: The pond area shall be enclosed with a fence conforming to the following:

1. The fence shall be at least four feet (4) in height.
2. The fence shall be welded, woven or chain link material with no smaller than (14) gauge wire. Cattle or Hog panels can be substituted with a tee post for a line post.
3. Fence post shall be pressure treated wood, galvanized and/or painted steel. Fence posts shall be driven tamped or set in concrete. Line posts should be at least (18) inches deep and shall be spaced no more than (10) feet apart. Corner posts should be at least (24) inches deep and shall be properly braced.
4. The fence shall be of sound construction with no gaps or openings along the bottom.
5. Fence shall be no closer than the center of the berm to the water's edge at the (3) foot deep operating level. Fence setbacks should not exceed (30) feet from water's edge.
6. A properly hinged (4) foot high gate or comparable material shall be installed and provided with an effective latching device. The gate should be (36 – 48) inches in width to accommodate mowing equipment.

This form must be submitted with the permit application.
