

FLU SHOT CLINICS

In a typical year, over 100,000 Missourians become sick from the flu.

Many Missourians of all ages become seriously ill and some are hospitalized. 2020 is anything but typical, and state health officials are urging Missourians to get the flu vaccine by the end of October.

Protect your family. Everyone over 6 months old is eligible for a flu shot.

Visit MOStopsFlu.com for more information.

Call our office to see if you and your family qualify for free immunizations.

EMPLOYERS: Call us today to schedule a flu clinic at your business for employees!
