

America's #1 Medical Alert Service Since 1974

As part of Philips Healthcare, the commitment to innovative, quality care is in everything we do here at Lifeline. Whether it's state-of-the-art lab equipment for hospitals or advanced consumer products for patients, Philips is dedicated to improving quality of life for individuals and families everywhere.

Our suite of aging-in-place solutions supports independent living and helping older Americans make the transition from hospital to home. As the leader in medical alert systems in the United States for over 40 years, we combine a steadfast commitment to innovating with a variety of services for your lifestyle and outstanding customer service.

Our Mission

Our mission is to transform the aging experience, making it better for older adults, caregivers and clinicians around the world by:

- Delivering personalized services that provide quick, stellar support 24/7
- Keeping customers as healthy as they can be through continual innovation
- Enabling caregivers and healthcare providers with access to the information needed for better outcomes

We work to create solutions so seniors can live independently with grace and dignity in the place they call home.

Medical Alert Devices

Choosing the right fit for you to remain confident on your own.

A service proudly offered by your local

Pike County Health Department
Home Health & Hospice

Choose the right solution for you

Feel more secure at home or on the go with one of our proven medical alert services.

In the home

HomeSafe Landline

Get access to the help you need 24/7 at the push of a button. The HomeSafe Standard medical alert system delivers peace-of-mind at home, at an exceptional value. It is completely water-proof and is designed to never be taken off. This service requires a landline and is perfect for those who are home bound. Add the Auto Alert option that provides the benefits of a classic medical alert system, but is enhanced with a highly tested fall detection technology. Having AutoAlert means if a loved one falls, and is unable to press their button, a help call will still be sent to the Response Center.

Pricing:

- Standard: \$29.95 per month
- With Auto Alert: \$44.95 per month
- One time Installation/Equipment fee of \$75.00 that can be made in payments
- 5% discount when paid for annually

HomeSafe Wireless

HomeSafe wireless allows help to get dispatched quickly without the need of a landline. This product is completely wireless and runs off of its own AT&T cellular signal this option is also great for those who are home bound. It is completely water-proof and is designed to never be taken off. Add the Auto Alert option that provides the benefits of a classic medical alert system, but is enhanced with a highly tested fall detection technology. Having AutoAlert means if a loved one falls, and is unable to press their button, a help call will still be sent to the Response Center.

Pricing:

- Standard: \$43.95 per month
- With Auto Alert: \$56.95 per month
- One time Installation/Equipment fee of \$75.00 that can be made in payments
- 5% discount when paid annually.

On the go

On-The-Go Wireless

This product is a single piece system including multiple, advanced locating technologies, fall detection capabilities and two-way voice communication all in a light, comfortable, easy-to-wear pendant. The On The Go device provides fast access to help whenever and wherever you need it. It is completely water-proof and meant to never be taken off. This product is completely wireless and runs off of its own 4G AT&T cellular signal so it is perfect for those adults who are still on the go, away from their home but prefer to have the extra level of safety when out-and-about. Requires charging with an easy to use charger that does not require the user to remove the device. **This is not an option for those with implanted cardiac devices.*

Pricing:

- \$49.95 per month
- One time Installation/Equipment fee of \$100.00 that can be made in payments
- 5% discount when paid annually

Pike County Health Department Home Health & Hospice is a proud program partner with Philips Lifeline & Connect America. This means we are here to install, service and manage your medical alert system for you so you have that extra peace of mind knowing that you are being taken care of. With your medical alert device from our agency you not only gain access to our local customer support group, you are also helping to keep our agency funded to ensure we can continue to offer amazing services and programs to our communities. Above you will find our three basic options of medical alert devices and a brief description of each. All of the wireless options run off of their own dedicated AT&T service, they do not need to connect to the subscribers current internet or cell phone.
